

## The Guardian Angel Chakra Soap ( by ToBe )

Since several 1000 years the teaching of the Chakren is known. The name Chakra origins out of Sanskrit and means "wheel".

This is symptomatic for the Chakren, which represent the 7 main energy centren of our body.

These lay on the front part of our body. It is best to imagine them as a turning whirl in the colors of the 7 Chakren.

Each Chakra has its own dedicated color.

A stimulation of a single Chakra via its color is an easy way. Also there is a direct connection of the Chakren to Guardian Angels.

Each Chakra is dedicated to separate fields of our personality e.g. self-assuredness, compassion or creativity.

Through the activation of each Chakra the personality aspects are invigorated

Our in affectionate homework made Chakra soap stimulates these processes through color and scent. Our bodies react very good to this combination of stimulation and the single Chakren can be easily balanced in this way.

We offer our soap bars in complete Chakra sets ( 7 pieces, one of each Chakra color ).

You have the choice between the oval guest soap ( ca.35 g each ) and the quadratic "normal" size ( ca.65 g each ), as well as the mini version of each ( ca. 7g each ). There is also a choice between the strong colored transparent or the opaque soap in gentle pastel color.

It goes without saying that we only add scent via essential oil! Each color has its unique scent and we only use high quality greenie glycerin soap with Aloe Vera.
